Hiding in Plain View Gambits Destroy Foundations

Why I assert Veronica Hoffman was assassinated via a trap of her allegations she could not prove to anyone

I Ed Donegan assert this is part of the story of the assassination of John F. Kennedy by the OSS CIA including Donald Bar and the sensitivity to this story by the CIA bolsters my allegation and even in part created my thinking on this matter.

Groupon theory is that James Donegan was born in Orchestrate Massachusetts a Roman Catholic like Honey Fitzgereal, JFKs mother, in immgrant from Republic of Ireland. JFK and James Donegan and Glorian Donegan would be at my birth in Los Angeles. It was a CIA plan. GLorian was already a CIA secret identity birth, and a new generation of the same was being created from the genome of this family line.

But as Jen Moore and Ed Donegan observe there is history to a minor brain defect Minimal Brain Disorder (FOXP2) small collection of clinically observable related cognitive minor flaws like concentration, writing, fine continuous nerve control, executive function, etc.,

A bookend piece on Edward Paul Donegan III my being a descendent of a King Edward via a Rodin sendup called Rheinhold's Affe mit Schädel and a few days after my birthday these two statues in my home, one in the Whitehouse

Some who looks like Donald Barr who wrote on Anthropology and Space Fiction of great realms of royal leaders has an experimental monkey November 23, 1961 in Washington D.C. shown in JKF

In other locations I have zoomed in on it and it appears to be the same statue make as EPD III of the Donegan family bookshelf where the fireplace, bookshelf and sometimes TV in the bookshelf were on the other side of the bathroom wall were at first were two sinks for two children to use (Tom Donegan and Ed Donegan) then further in the toilet and on the far side of the toilet room a door to the patio leading to the backyard the master bedroom the to the next wall over.

Artist Hugo Rheinhold (1853-1900)Rheinhold's most popular sculpture, a reflection on Darwin's theory of evolution, ponders man's superior ability to ask "where do we come from?

According to the story in the Donegan family there was a grandfather of mine who was a dethroned king of some type and some type of numeral aristocrat after that. I had thought in my youth it was an Irish King from County Donegal Ireland and tied to Northern Ireland and Republic of Ireland changing legal structures.

My mother did come from North Carolina I believe (now) a hidden-identity Maria Kutschera daughter that resulted from Windsor family after 1925 philandering as they studied offspring from generation to generation with new gene-pool and new tests of genetic outcomes and more specific patters of eugenics and determination as to possible early determination of who might be good for the CIA to groom IF these children were in adoptive families or orphanages with parents who were not themselves really parents of their own children as Glorian and James really were parents of me and Tom my brother.

A gambit (from Italian gambetto, the act of tripping someone with the leg to make them fall) is a chess opening in which a player sacrifices material with the aim of achieving a subsequent positional advantage.

The word gambit is also sometimes used to describe similar tactics used by politicians or business people in a struggle with rivals in their respective fields, for example: "The early election was a risky gambit by Theresa May."

The foundations of what the story behind my genome history and OSS CIA history and how it relates to EPD III and the story of some king of origin of that (probably the a Duke) grandfather of mine this the III) is what Veronica Hoffman might have been silenced and discredited over.

The Gambit to undermine something like the story of my family and its genome attacks the legs of the story, the foundations of the story.

Hiding in plain view as non state actors undercover operatives menace and threaten and mock and harass a person, the person being a Targeted Individual. The Targeted Individuals has their leg in the trap that closes on their leg and stops them.

The allegation of bizarre activities fo seemingly normal people can't be proved to third party without very extensive logs, etc., thus when the Targeted Individual response to the harassment they are placed in a mental ward. Another possibility is the menacing stalk of stalkers hiding in plain view by disguising themselves as normal everyday neutral people is that the Stalker may create an incriminating appearance about the Targeted Individual that creates a sense of alarm for the Targeted Individual.

Would the story about this bookend piece be a reason to catch these people in leg irons and a mental ward?

Introducing the people named here as Organized Stalk Victims

The story of my meeting Veronica Hoffman and Tom Dunam grouped together

VERONICA HOFFMAN AND TOM DUNHAM

Los Angeles Dom, Mistress Veronica Takes Her Life - LUKE IS BACK lukeisback.com http://www.lukeisback.com › 2009/08 › la-dom-mistre... Aug 7, 2009 — As Mistress Veronica, she was highly regarded as a pro domme.

At the time Veronica Hoffan committed suicide in a mental ward with "bipolar allegations" it is possible I was in a pscyhward in North Carolina or just released from it asserting I was radiologically attacked and Ted Gunderson was giving interviews and speeches he was being stalked, people were being planted on him, and he was being poisoned by the global elite.

-- Ed Donegan's timeline per Veronica Hoffman, EPD III, and Tom Dunham --

I had been claiming Stalkers and other strange activity in my life (like a Double actually several of them at AOL Time Warner of me) and fired from my job at WElls Fargo I started a beef with sociology since it seemed to be that there was a race-baiting set of affronts to me for some ten years or so and it was really starting to get to me though I spoke to other whites and they did not feel sociology theory a matter of concern to themselves as they experienced regular life and employment.

I had been going to a goth club Bondage A GoGo in San Francisco and a clique had it in for me but that is usual and fairly common anywhere. I had met one night Veroncia Hoffman who was from Los Angeles and was a clothing designer, cybergoth, dominatrix and overall artist of various arts and had her boyfriend with her at BaGG were we exchanged hellos and each were in the pit or some roped off areas at various times, her I think at some table some Northern California friends were and likely vendors.

At the after party at Mission Control swingers club I talked to her further. She was doing some porn very cyberghoty artsy and looking for some heavyer players and I suggested myself.

I told her at that time I had been fired from my job, was working on a Human Genome dispute with the NIH and my status as having Learning Disabilities and why was i singled out for being white under Whiteness THeory.

Those discussions went along after I moved to Washington D.C. (fearing my plane would be shot down by the CIA as I was led to believe) and when I got to D.C. I continued talking to her but she changed her online persona to a person in swimwear at the pool being peeped at and decided to leave me out and use someone else.

Genome issues and questions were on my mind in 2002 on, just about the time I was meeting her. When I was fired from Wells Fargo in 2001 shortly after September 11 2001 it was a huge dissapointment to my family and me and I was already using drugs again at the time I was fired. That in several ways was part of it (staying home surfing porn, not leaving out and about in public out of my mind.)

The sequence of being fired was they put me through Sumit Merrit Peralta (Oakland Psychiatric Drug Clinic Hospital) where the diagnosed ADHD. I already knew I had Dyslexia symptoms. They used Wellbutrin the Dopamine level correctivne pharmaceutical intevention as a prefered ADHD treatment for addicts.

My father and mother talked about this by phone for many many hours over several years. As a child I showed symptoms of some dysfuncions like not percieving others behavior when I had dropped a water bottle, and I went to testing and special ed for a few years. After the ADHD testing my father was heart broken. As child they had suggested Ritalin but his philosophy was anti drug and wholism. We both aggreed most stimulants were out, I wanted coffee, he even worried about that but not so much CMS nervous system bolsterin Bupropin to helpt the executive function of the brain. While aproving of this and Wellbutrin/bupropin he agonzied over wether being part of the atomic blast test had injured his own genome passing it on to me.

We agree Tom and me had identical lives, it wasn't nurture, it was nature. I was taking on the issue that I have a particular shape of my snowflike others are different but there are no perfect snowflakes so get over my being white though people were attacking me on that basis from nowhere.

I had talked to most people including all I knew about this and let her (Veronica Hoffman) know I didn't use drugs and was in recovery.

A few years earlier I had download some teens at the beach (not swimming pools) newsgroup bikin images but among many other things I had clicked on. Mostly I like sports fitness body sculpting I had liked since the 1980s and Muscle and fitness. I may have looked like from that one news group with the others i was a teen freak or biking freak. Late teens as a matter of silhouette are not issue for me, nor is bikini offensive to me, but none of that should evern be taken too far as emphasis.

"Junk" appears in many newsgroup feeds including less than teens, occasionally for reason not related to eroticism I would keep a few, especially as it related to sophisticated studio photography or unusual iconography. That is what I think people lept on. AT the same times minors (under age

females) photo bombed and and all pictures I attempted to take staring in 1997 or earlier if I had not noticed it.

There were some times women I was dating or Dominatrices I knew had some or partial information on EPD II and anthropology. Domina Athena of San Francisco (founder of Bound) I new and was in the clubs and in her house I was a sub to her and we had gone through that history of Dr Leaky a few times the exact details I forget but may have involved EPD that was somewhat hushed and discouraged but talked about inside the family. Domina Athena would later die of breast cancer. I had known her in the I am guessing mid 1980s.

TOM DUNHAM

At the time much of this was going on I was also talking with Tom Dunham including the same issues I was talking to everyone esle about. I was bringing women from BaGG to his place, not having my own private place, now unemployed, and about to go to Virginia where I had lived to live mith my mother who had moved to this city close to Washington D.C. to be close to my brother who was also living in Arlington VA. My mother lived at 850 N. Randolph and from there I continued emailing and talking to Veronica Hoffman but by now she had said no, though almost up to the time I got on the airplace for Arlington VA she she was not committed one way or another.

I was at this time asserting people were near me and said they were CIA and were going to shoot the plane I was on down if I were to go back and live with my mother. Most thought I needed a change in my ADHD medication but I did board the plane and made it Arlington VA without incident.

For several years prior to going to Virginia I had asserted stalkers pointing guns at me, etc., and I had been in the psych ward many times for reporting that, and I still assert Agent Provocateur stalkers tying to by their denials of stalking me look paranoid about their being there.

I suspect MKULTRA Stalkers familiar with OSS CIA history and Donegan genome history have tried to interfere with any story line or information being passed (especially passed credibly) about EPD III.

Blacklisters had smeared my reputation to Veronica Hoffman. Later on she was assassinated with a smear on herself to cover-up that history of her being used in a covert operation the CIA and FBI want to deny exists, Gang Stalks.

This was a problem for me, but if not exagerated by others not too serious a problem. Having been institutionalized and single all of my life I can take or leave it, and often would if things got icky. I don't bottom feed and I don't choose relative to one or another. If any action feels right I may persue, else not, and that is outside any context.

Part of the complications of that time frame, around 2002-2005 was my family or origin issues. I told my father they were trying to frame me with outlandish misrrepresentions that reversed what was true of most issues of my life. I had told him as he visited me AFTER druge rehab it might be tied to a guy named Marti and what happened in the late 1980's. I had been letting everyone down including my father, flunking out of school he paid so much for in Oregone, and he let me know that cost him a lot out of pocket. I felt a lot of shame about that and loved my family of origin. Later my mother cosigned a Nissan Puslar for me, a sporty looking body of what was a Sentry but with high tech sporty feel and look.

I was behind on payments and felt terrible about it, fired from jobs AFTER flunking out of school then this guy Marti tried to steal it by stealing me keys when I broke up a fight between him and his girlfriend. Late the issue came up when I had been giving him a ride somewhere and he said something that inflamed me about it and I startee threating him, he got more abusive, I started to pull over and he jumped from my car towards his freinds in nearby pickup truck. I was in rage over the car and now thought I was putting more of my family's contributions to me at even greater risk

of again being lost. I jumped in the truck after him and in about a 10 second interval had punched him about 10 times. As he curled up I had hit him on the back of his head breaking my hand or wrist. I was 60 days sober and we (Hayward Fellowship) had gone of to Courage To Change convention somewhere in Palm Springs with my arm wrapped up.

That seemed like times gone by but as I was telling my father there were references to it at druge treatment groups that seemed wrong. I never really knew what happened to the guy, Kevin Conner, aka Fuzzy Bunny and I went to look for him later and never found him, we heard he was seen in the area looking confused. The truck had sped away with him in it, me jumping out, never seeing him again. I had told everyone about my burst of rage and that story including drug intake counselors. At one time during the time I knew Veronica there seemned to references to that other than drug rehab and I thought on several occasions I heard the distintive sound of his girlfrinds voice.

As for teen being all around I told him it was not my interest and I was curious about it, one time a teen girflriend of an adult roomate and I were on a mutally agreed ickey course neither of us really wanted she broke it off and I thought great. I had wondered if it was a setup or something that may have excerbated some misunderstanding about teens, and that I really had more "on duty" attitude about this kind of thing, expecting as a good camper, cleaned up as I camped out, kept things safe and wanted to be dependable, the latter few I was failing at though, but still, teens were not my thing and I think he thought that too. It was as I was being fired from Wells Fargo we talked alot, in the building I was almost moving into, Fox Plaza and I reported I was being stalked to him, and he seemed to notice it too.

Part of those conversations as he came out to visit was a recording I made of a team meeting at Wells Fargo to prove I was right and when I listened to it it proved I was wrong. My father and I listened to it together and I was totally missing what at least one team member was telling me. It was part of ADHD it seems my attention wandering off and missing points I should be hearing.

So with all that going on, simple social stuff was not that big a deal to me and I had a lot on myy mind 2002-2005.

Despite all the trouble I was having before and after that my father still wanted me as his guardian of terminal illness. Should he lose consciousness at any time and be in total loss condition I was to make sure I could find him and having responsibility for the plug coming out of the wall. I don't think he was expecting that to happen, he expected to live a long time, but it was a way we nonberbally expressed our closeness and respect.

Today part my anger is he is being attacked by me being attacked following his death in 2014 and I am openly hoping the law will deal with my assailants, -or the Iranians or Russians will.

Because others like Ted Gunderson, Geral Sosbee, and Veronica Hoffman and Tom Dunham document the same exact things and the evidence is still available I believe these others and assert I am telling the truth too and I also can document it.

Tom Dunham lived near where I lived on Natoma STree and he lived on Langton and we both were in walking's distance of all clubs, Bondage A GoGo, Death Guild, Die Machina, Meat, Bound, and various others or one-offs. He like I had children and inculpating - conjoining suggestive items and statements of others projected onto him as such projections we cast towards me. THe usual methods were used in fact I learned the system when he and I were noticing the same things. A Mob is held with your landlord, boss, etc., without you at it and during that Office Mob you are not at KOMPROMAT is inserted into the environment. Often additional inserts in to the office or other environment are made undercover and those who have joined the office newly will talk up the KOMPROMAT all done behind the Tarted Individuals back.

NORMA JEAN

I (Edward Paul Donegan) have read Monroe was harassed into suicide; and more likely was finally murdered by a CIA operative Norman Hodges who was protecting Operation Mongoose from leakers and Monroe was about to tell all.

Here is the history I assert. Marylin Monroe was born in 1926 just a Princess Elizeith was, the daughter of Queen Elizibeth I, Queen Elizibeth I was made famous truing to find speech coaches for her husbald Albert of York who gave a poor speech in 1925. My assertion is Albert of York had numerous out of wedlock proginy just as Edward probably did. FOXP2 gene is very visble in clipped written grammar but not in speaking. This royal family had FOXP2 and wanted it researched out of the view of the public. Joseph Kennedy Sr underlining by business contact to Navy Undersecretary FDR in the early 20th century along with Admiral Halsey took pregnant women into the USA in 1926 at least Maria Kutchera, leaving the convent in Austria pregnant, and having secretive out of wedlock CIA OSS planted children in the USA and who were watched and tested fro the gene early in life including by stress based testing, something akin to heart stress test on a treadmill. This was integrated into Agents of Influence planted into other countries and in the USA, such deep covers the children were planned from parents (famous but hidden) who would use orphanages and fake parents the way they used Nanies, governers, governesses, and personal assistant to acknowledged offspring.

Alleged parents may include or have actually been biological parents on one side of the family tree aid workers, diplomatists, etc., in other countries thus giving a Agent of Influence a possible future in Kenya, or any other country the birth is registered in.

Monroe's file begins in 1955, the year she made "The Seven-Year Itch," with its familiar subway grating scene, and the year after her eight-month marriage to baseball star Joe DiMaggio.

"Subject's views are very positively and concisely leftist; however, if she is being actively used by the Communist Party, it is not general knowledge among those working with the movement in Los Angeles," a July 1962 entry in Monroe's file states. https://www.cbsnews.com/news/new-data-show-how-closely-fbi-monitored-marilyn-monroe/

TED GUNDERSON

Ted Gunderson was in the middle of it all, the JFK administration and the anti-rackets anti-mafia unites RFK was running against people like Marcello, Ruby, Hoffa, and others (most of them mafia left over bootlegging that turned to gambling) that Nixon and LBJ were using as assets for CIA activities including Murder Inc,.

Often the Defense Intelligence Agency and CIA would hid behind front-groups to obfuscated their connections to crimes and assasinations, groups like Temple of Set that was a Satanist Group forming on its own after leaving from Anthony LeVay's satanist organizations. Called a paraoniod for his beliefs Gunderson had the documents that the CIA,, DIA, and front-groups were one and the same and I have made a study of his works and can confirm his statements.

The CIA, NSA, and FBI did poison and kill him and others like him, and I can confirm those agencies activities are being conducted to hide the elite family's of MKULTRA in assassinations, those families Democrat and Republican though parishioner Roman Catholics of either party are most likely to diverge from the Deep State not all who do diverge are Roman Catholics.

Gene "Chip" Tatum confirms what Gunderson asserted, a very powerful NWO that controls the USA and its media, and that NWO is corrupt, illegal, and conducts assassinations to cover the trail of corruption.

Edward Paul Donegan (myself) assets Gunderson was correct about the CIA assassination of Marilyn Monroe, JFK and RFK, Jeffery McDonald's family, and more. I assert the Donegan's were

pressured into being biological offspring used for sleeper agents who now don't want to be be detected or exposed especially since until now the illegal acts of Operation Mongoose and those who ran it have escaped justice and been elected to office or appointed to office instead. Mark Gorton calls this the Quickening of the Cabal, rapidly stepping into the power vacuum the assassinations created.

SUNNY BONO ROMAN CATHOLIC ANTI MAFIA PALM SPRINGS CONGRESSMAN

A singing and acting entertainer who was friends with Peter Lawford and stared in at least one movie with him. Peter Lawfored was the brother in law of John F. Kennedy. Patricia Kennedy the sister of John F. Kennedy was married to Peter Lawford. Ed Donegan asserts the Peter Lawford Patricia Kennedy home in Santa Monica JKF was visiting November 18 November 19 1961 is part of Birther Theory and Barrack Obama Jr being born. That plan was hatched by the CIA that was operating since 1951 in Palm Springs, the home of the Mafia and the congressional district of Sunny Bono for Congress. The Bermuda Dunes hotel owned by an asset of the CIA held a meeting between he Mafia and CIA in I think 1962 that the records still exist of - to kill JFK.

Peter Sydney Ernest Lawford was an English-American actor. He was a member of the "Rat Pack" and the brother-in-law of US president John F. Kennedy and senators Robert F. Kennedy and Edward Kennedy. From the 1940's to the 1960's, he was a well-known celebrity and starred in a number of highly acclaimed films. Wikipedia Born: September 7, 1923, London, United Kingdom

William King Harvey, Sam Gold aka Sam Giacanca, Chauncey Marvin Holt, numerous others on the attendee list.

Sonny Bono died in a skiing accident by some reports engineered by thugs or rather the thugs killed Bono and staged the accident the same week a Kennedy died, the same way. Ted Gunderson and Ed Donegan assert these were attempts to preempt witnesses to the JFK assassination.

From Chauncey Holt Book

VO: Here are some of the memo's Chauncey refers to (picture of memo's). These men participated in a meeting held at a small airport between Palm Springs and Indio California, the name: Bermuda Dunes.

CH: For that meeting Peter Licavoli and I flew in from Arizona. Sam Giancana and Johnny Roselli came in from Chicago. William King Harvey came in from Langley. William King Harvey was a legend in the CIA. He was the only member, he was the only CIA-member there, but of course he was the one that was laying out the plans.

VO: Who was William King Harvey?

(picture of William King Harvey in the televised interview)

VO: Chauncey was well aware of his involvement in other CIA operations.

CH: William King Harvey was the head of Taskforce W. That had been renamed, originally, that was a part of ZR/Rifle, an Operation called ZR/Rifle. ZR/Rifle was nothing more than an assassination group, that went around the world assassinating people, and Harvey happened to be the head of ZR/Rifle.

VO: On December 14th 1961 top echelon leaders of the CIA and the mafia met at Bermuda Dunes airport in Palm Springs to discuss ground rules for Operation Mongoose. Chauncey's memo's of that meeting show an Executive Action was planned. Executive Action means assassination. The target: The Beard, Castro.

The ground rules: CIA only, maximum security, non attributability, plausible denial, need to know basis. Harvey set the tone of the meeting at the Bermuda Dunes airport.

CH: They were going to eliminate the Beard and how was going to be done and just starting as to what personnel they were going to hire. First of all they were trying to decide what cryptonym they were going to use, because they had decided that they would assign a cryptonym to end up in the official CIA-files. AM, normally, operations involving Cuba had an AM-start to their cryptonym.

VO: It is also decided any further discussions about operation Mongoose would be face to face, nothing in writing. The CIA's William King Harvey was clearly in charge.

CH: It was a very short meeting because of the fact that, 20 minutes to an hour, it didn't take very long, I mean, he laid it out in precise terms, but these guys wanted to get out, you know, and take off and uh guys like Giancana and Roselli, they were reluctant to get together, and Licavoli too, these high-ranking mobsters don't like to meet with each other and they rarely do that, so we kept it short and sweet and that was it.

(picture of CIA-memo on televised interview and contained in the book Self Potrait)

VO: An August 14th 1962 inter office CIA-memo from William King Harvey to the Director of Clandestine Operations says in part: "Our contract agents in Miami and in Los Angeles have been assured by me that no reference to this operation appears in our central files."

The Mob Memo of the same meeting also in the book.

GERAL SOSBEE

He (most likely) was privy to the Romania tied 1900's English/Romanaina royal family and the cover-ups they were attempted with world wide bastard children as Marilyn Monroe and the Donegan's are.

EDWARD DONEGAN (MYSELF)
